

Our BackSense® Collection consists of premium quality mattresses at exceptional values.

Additional Support Where You Need It Most...

It's BackSense®

Therapedic offers products to meet every level of support, comfort and budget. Although you'll find that our BackSense® mattresses are priced lower than many of the nationally known brands, the quality and care in these products does not get sacrificed.

Featuring technology and quality that you'd find in premium mattresses, you're sure to find a great solution for a better night's sleep – and one that makes sense for your back.

Support Features

Found in select models, our exclusive HourGlass™ feature increases support firmness by 18% at the shoulders and hips and 13% in the lumbar area.

Finding the right support is unique to you and your body. Within this collection you can find two options that provide the healthy balance of comfort and proper spinal alignment.

BackSense Contour Coil

This premium spring system is made with Active Support Technology® to provide 28% more surface coverage support. The heavy gauge coils alternate in direction to provide consistent firm support while instantly adjusting to your movements allowing your muscles to relax.

BackSense Luxury Encased Coil

The immediate comfort that you feel on this spring system is definitely something to experience. Each individual coil continuously flexes, conforms and supports your every curve while diminishing the motion transference across the sleep surface. This means durable, responsive support for you that won't cause disturbance to your partner.

Ventilated Performance Edge™

The Superior Foam Encasement that provides incredible edge support also features our Ventilated Performance Edge™ for better airflow and breathability.

COMFORT

Latex

Natural latex foam rubber delivers durable, resilient, positive resistance for your body.

Gel Memory Foam

Specialty memory foam infused with gel helps dissipate heat for cooling comfort and pressure relief.

Premium Fabrics & Quilting

Featuring luxurious performance fabrics along with a variety of quilt packages delivers nice comfort at the surface.

Gel Performance Foam

This durable and breathable foam helps dissipate heat away from the body for cooling comfort.
